Charles Zana

Our method reveals our know-how. Projects insert themselves in a dialogue with the space, the location, and the clients. Thanks to the generosity of architect Charles Zana, the agency's unique impulse is to treat each project as a humane and artistic adventure that offers a lifestyle philosophy. French traditions and culture are the foundation of Charles Zana's creative commitment. At his office in the heart of the historic Paris Saint-Germain des Prés neighborhood, he welcomes clients with a cultivated elegance and an open mind. The subtle balance of his projects is enriched by a slightly shifted twist: "audaciousness within a certain classicism." His team of specialists is broken down into different areas: architecture, decoration, the hotel trade, artistic creations, and furniture design that together cover the broad spectrum of the architect's involvement.
